Tourism.

Christmas Island still remains off the beaten track, but a new five star casino resort built to attract Singaporians and others from nearby nations will help change that. Good snorkeling and scuba diving attract humans. Tourists also are discovering the annual November crab migration, when the island is almost covered with crustaceans making their way from the rain forests to the sea. Viewing this natural phenomenon becomes more popular every year, so go before the humans outnumber the crabs.

Lycos has a page, with links, on the Australian Christmas Island

Travel Safe 200 ++++++

Pacsafe has released a larger version of their popular Travel Safe. The Travel Safe 200 offers steel-mesh security like the original, smaller version but is large enough to handle a laptop computer.
